- (A) **Bust.** Measure over the fullest area of the bust & straight around the back.
- (B) **Waist.** Measure waist under the rib cage and above the hip.
- (C) **Lower Hip.** Measure the fullest part of the hip ensuring the tape is straight around the body.
- (D) **Inside Leg Length.** Measure the inner thighs from below the crotch straight to the floor level.

Fabrics

We offer a small range of quality natural fabrics at low MOQs. These fabrics are made organically and some are hypoallergenic. We also offer other man-made fabric that are light, breathable with a really nice flow, these polyester fabrics are great for digital printing. You can find more info about our fabric on our website. We recommend that you pay us a visit frequently to stay up to date with everything that we have to offer.

Prints

We do all our prints in house.
All of our prints are made using ecological inks

Endless print options. Always using Eco Ink.

Print Strikes

For all prints, we offer a mock-up & print-strike service, where we send you a digital mockup for proportion (size) approval, and then we make a 30x30cm trial-print swatch to send you. From there, you can personally verify the quality of the print itself, and if there's something you aren't satisfied with, we'll revise it!

For fabric prints, the digital print file (artwork) must be high-resolution (300dpi+) to print well. It can be a vector, JPG, PNG, TIFF, or any other format - as long as the file is high-res.

Seamless

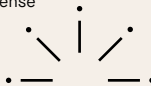

Artwork should be seamless or set up for repeat, which simply means that you can put copies of the print next to it in each direction so that it matches up without any interruption in the pattern. If it's not repeatable initially, you can sometimes mirror the image four ways, and thus create the same effect. We can assist you in ensuring that your print is able to be repeated and replicated in a clear pattern.

Scale

Lastly, the scale of your print is key. For example, you have an artwork/pattern of a starfish - what's the height of each starfish? The difference between a small cute 3cm starfish and large 15cm starfish will make a difference on your end-result.
